

*Changing Lives
Changing Communities*

Transformation Services

DO YOU HAVE WHAT IT TAKES TO BE A ROLE MODEL?

We assist you by giving you the tools you need to make a positive life change through our “Treatment and Training” Model, which prepares you to make a positive return to the community. If Assessment and Treatment (Day Into Night) are required through arrangement with your employer, or whether you are self-referred-it is available. If after completing Treatment, you decide on a Career in the AODA or Mental Health Field, that can be assessed at that time through our *360 Circle of Support Community Training Program*.

Day into Night Treatment Program:

Our services offer an intensive 3 month, “15 step” recovery program that focuses on skills training (Anger Management, Parenting), Therapy, and Peer to Peer support (Driver’s License etc). Successful completion prepares you for our AODA Certification Track: 360 Circle of Support Community Training Program.

360 Circle of Support Community Training Program:

The 360 Circle of Support Community Training Program is a 8 week Educational course, followed by additional ‘Paid Or Volunteer On The Job Training and Educational Experiences’ to assist you in becoming an AODA Counselor Substance Abuse Counselor-In-Training or Registered Prevention Specialist (Youth). This Peer to Peer model addresses both the issues of abstinence and employment/business ownership, as you provide Services/Consultation in our (State or Partner) Certified AODA/ Mental Health clinic. Our program has been shown to be successful because it was developed by the disenfranchised: unemployed, underemployed, ex-offenders, and those in recovery.
